## 11+ Spatial Reasoning Sample Test

This is a multiple-choice test.

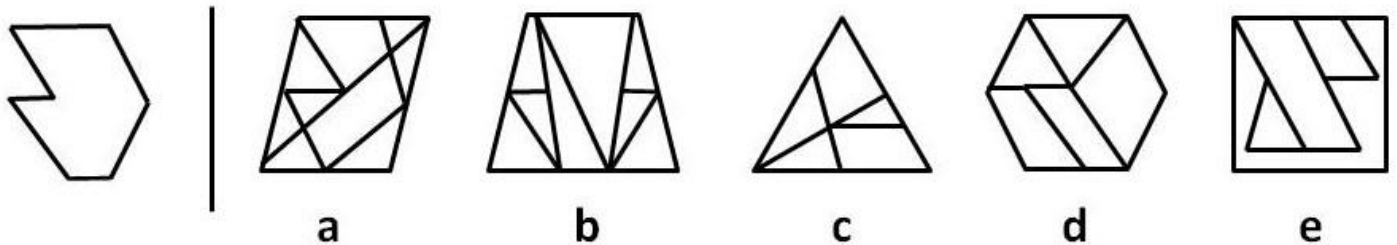

There are 6 questions, and you have 3 minutes to do the test.

For each of the following questions, the shape on the left is hidden in one of the five shapes on the right of the line (and it is exactly the same size and same way round where it is hidden). All of its sides are visible in the shape where it is hiding. Which of the five shapes contains the shape on the left?
