11+ NVR Sample Test

Contents

Questions	pages 2-7

This is a multiple-choice test.

You may do rough working on a separate sheet of paper.

If you cannot do a question, do not waste time, move onto the next question. If you are not sure of an answer, you should make a guess.

There are 12 questions and you have 6 minutes to do the test.
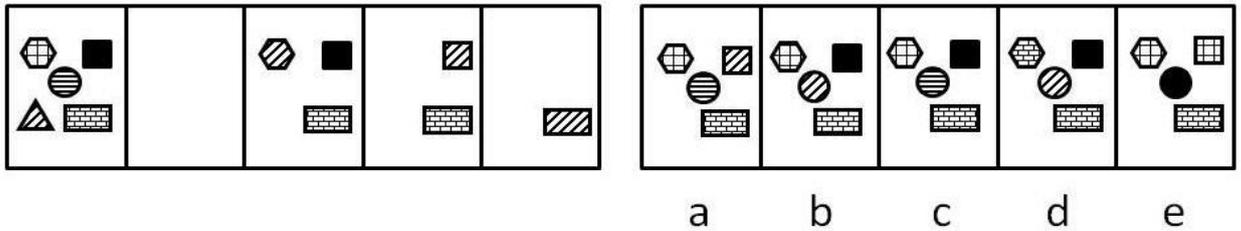

Questions

|	
1	The two figures on the left have an arrow between them. Decide how the second is related to the first. After these there is a third figure, then an arrow and then five more figures. Decide which of the five figures goes with the **third** one to **make a pair** like the two on the left.
2	In the big square on the left, one of the small squares has been left empty. Which one of the five figures on the right should fill the empty square?

| 3	The five squares on the left have been arranged in order. One of these squares has been left empty. Which one of the five squares on the right should **take the place** of the empty square?

a   b   c   d   e

| 4	The figures on the left have codes that go with them. You must decide how the code letters go with the figures. To the right of these codes, there is a figure followed by five codes. Which one of the five codes goes with this figure?

XYZ

CHZ   CYZ XHZ CHB XHB XYB

           a   b   c   d   e

CYB

| 5	Which one of the five figures on the right is **most like** the two on the left?

a   b   c   d   e

| 6	The two figures on the left have an arrow between them. Decide how the second is related to the first. After these there is a third figure, then an arrow and then five more figures. Decide which of the five figures goes with the **third** one to **make a pair** like the two on the left.

VISUTEACH

A   B   C   D   E

7	The figures on the left have codes that go with them. You must decide how the code letters go with the figures. To the right of these codes, there is a figure followed by five codes. Which one of the five codes goes with this figure?

CA

DB

EA

DA   EB   CA   EA   CB

A   B   C   D   E

8	The five squares on the left have been arranged in order. One of these squares has been left empty. Which one of the five squares on the right should **take the place** of the empty square?

A   B   C   D   E

| 9	Which one of the five figures on the right is **most like** the two on the left?

| 10	In the big square on the left, one of the small squares has been left empty. Which one of the five figures on the right should fill the empty square?

| 11 | The boxes on the left contain figures and the code letters that go with them. The top letters mean something different to the bottom ones. You must decide how the letters go with the figures. For the figure that follows the vertical separation line, find the correct code from the set of five codes on the right. |

| 12 | Which figure is **most unlike** the other four? |
